Funding for high-achieving international students

In recognition of academic excellence, and in order to make the choice to study at Ca' Foscari more affordable, the university offers financial aid specially earmarked for high-achieving international students enrolling in a bachelor's or master's degree programme.

In the past, this aid has taken the form of tuition fee waivers and scholarships.

To learn about the form that the university's funding for international students will take for students applying to begin their studies in the fall of 2022, you can write to prospective.students@unive.it.

Once enrolled, students from low-income families can also request financial aid from the regional government.

How to apply

For bachelor's and master's programmes:

There are multiple calls each year for admission to begin a bachelor's or master's degree in the following academic year. The university begins accepting applications in the fall and stops in late spring.

For the precise dates of each call, which are determined at the beginning of the academic year, visit apply.unive.it.

STEP 1 – Preliminary evaluation

Students who have carried out their preparatory studies outside of Italy must begin the application process by requesting a preliminary online evaluation of their qualifications at apply.unive.it.

- Official diploma *OR* letter of enrolment
- Official high school mark sheet *OR* undergraduate transcript of records
- Official English or Italian translations of the above documents if they are not already in one of these languages
- Proof of a B2-level knowledge of English (e.g., IELTS, minimum 5.5; TOEFL IBT, minimum 72)
- Letter of motivation
- Curriculum vitae (for master's degrees only)
- Passport (EU students may submit an ID card)

Please note that all documentation must be provided in high-quality colour scans.

For more information about the application procedure and deadlines, please visit www.unive.it/evaluation.

STEP 2 – Entry test for limited admission programmes

If you are applying to a programme with limited admission and have passed the preliminary evaluation stage, you will be required to take an entry test.

The test's format and when it takes place depend upon a number of factors, including whether you are an EU citizen or not. For specific information about the right test for you, write to prospective.students@unive.it.

For doctoral programmes:

Each year Ca' Foscari issues a single call for applications in the spring that provides all of the necessary details about the application and selection procedures for all doctoral programmes.

To be admitted to doctoral studies, candidates must participate in a public selection process that entails the evaluation of their academic qualifications as well as an oral and/or written exam.

For more information about how to apply, please write to phd.office@unive.it.
